A PET ROBIN.

An Eminent Naturalist Writes a Bird Biography.

[Extracts from a sketch by Samuel Lockwood in the American Naturalist.]

In the clearer light of these latter days, a higher value has been placed on the so-called small things of nature. It may be that Mrs. Partridge spoke wiser than she knew when she said: "Human nature is human nature, if you find it in a cow." Let us attempt to tell the story of a tame robin.

Rob, for so we called him, was taken from a nest on Long Island. He was turned a year old when he became one of our pets, and very soon he had established himself in our affections. He was very exacting of attention—so demonstrative and familiar.

Much sentiment is wasted about keeping birds in confinement. Does it not generally come from such as are intolerant of pets? "It is a deprivation of natural freedom." So thought the horse in the meadow, as he beheld the ass roaming in the unfenced sand lots. Even birds may have hard times. Yes, I have known the free wild birds to be starved to death within the sound of a canary's song. But perhaps Rob was unexceptional, for it was plain that prison or not he liked his cage. In it he was at home and well to do—away from it he was adrift and unsettled.

The senses of birds must be very acute. I would instance in Rob's case that of scent. He was extravagantly fond of fresh beef, and though in a different room, could tell the arrival of the butcher's boy in the kitchen, when he would scream with impatience. Little strips of raw beef were fed him. If when receiving one morsel he saw another in the fingers of his mistress, he would drop it on the floor of his cage and wait for the next bit with nervous impatience; and so would he do until he had secured all that his sharp eyes saw, which done, he ate these delicacies in a perfectly orderly way. How unlike a dog which swallows as fast as he can the meat given it. But Rob was particular, the meat so providently put on the floor of his cage was thus rendered dirty, the knowing bird would take it piece by piece and wash it in his water tub. This conduct showed the nearest approach to abstract reasoning that I ever saw the bird make. Many of the birds like this condition of leisure with their food. How often have I seen a fowl pick up a grain of corn, then drop it and look at it, then pick it up, drop it and inspect again several times, then swallow it, and all with no other logic in the matter than I could see, than to make the most of one's blessings. So with Rob, having got his share before him, he enjoyed it in a leisurely and sensible way. He was very fond of the larvae which we used to find in chestnuts. Even these he would smell afar off, and would go into ecstasies, making a lively chattering talk, as one was brought to his cage. The presentation of a spider was a grand event. But as to earthworms, he had a soul above all such. So far as Rob was concerned, the early bird was entirely welcome to them.

MISCELLANEOUS NEWS.

Horse-radish will afford instantaneous relief in most obstinate cases of hoarseness. The root is best when green. The person who will use it freely just before beginning to speak will not be troubled with hoarseness.

A Missouri paper tells of a mule that has five legs. This leads the Chicago Tribune to remark that this extra leg is wholly unnecessary. Instead of giving the mule more legs, a much more agreeable mule might be constructed by the omission of the hind ones.

According to the story of the Baltimore American, a North Carolina widower has been arrested while attempting to sell a set of false teeth belonging to his deceased wife's estate, to procure funds for the purchase of a suit in which to marry a second wife.

Judge Clifford of the United States supreme court has just decided "that owners of wild beasts, or beasts that are in their nature vicious, are liable under all, or most all circumstances, for injuries done by them." The future of the mule looks dark, the Albany Journal thinks.

The cheapest railroad ride offered in this country to-day is from Kansas City, Mo., to Chicago. The distance is 500 miles, and the fare is fifty cents. The usual cost of a ticket from Kansas City, Atchison and other Missouri river points to Chicago is \$15.25. On Monday the competing lines began to cut rates, and the figures by Wednesday had got down to \$9. Wednesday morning one road came down to \$8, the others soon followed, and toward the close of the afternoon the Hannibal and St. Joseph line hung out the notice, "Fifty cents to Chicago," and the rest followed suit.

Pacific Coast Bulletin.

Bullion shipments to San Francisco for the four months ending April 30th, 1879, were as follows:

Nevada, 20 miles.....	\$7,121,251
California, 18 miles.....	1,619,918
Utah, 4 miles.....	484,000
Arizona, 3 miles.....	278,000
Dakota, 4 miles.....	110,000

These mines produced in April \$2,337,197, of which one-half was gold. The May yield from most of these mines foots up less than \$1,000,000, while the May assessments on fifty-four mines aggregate \$1,351,500. —Bullion.

Snake River Mining.

Times-Review.

A party who has spent some time on Snake river and made a thorough examination of the merits of the placer mines there gives his opinion of them as follows: The claims are located in lots of twenty acres, according to placer mining laws, and are chiefly owned by San Francisco and Salt Lake capitalists. Few, if any miners are working for themselves, and neither the yield from the mines nor the wages paid, are sufficiently large to make that country a desirable one for prospectors. One dollar and a half per day is the maximum price paid to miners, and the fact that no Chinamen show a wish to purchase interests there is a pretty good indication of the real value of the country for placer mining. The gold is very fine, and can only be saved by using the electro plate. Our informant thinks the excitement in regard to the mines is kept up and encouraged by the owners of claims, whose sole desire is to sell out and leave the country as soon as enough men, misled by these false reports, can be induced to go there.

Dr. Mintie's Nephreticum.

Dr. Mintie's Nephreticum works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back and loin are cured when all other medicines have failed.

See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills: "We have sold a large amount of Dr. Mintie's medicine; the English Dandelion Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction."

John A. Childs, Druggist, Second street, Portland.

C. H. Woodward & Co., Druggists, corner First and Alder street, Portland.

Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:

"We regard Nephreticum as the best Kidney and Bladder Remedy before the public." All Druggists keep these medicines. For all derangements of the Liver, Use Dr. Mintie's English Dandelion Pills. For Bilelessness and Dyspepsia, Use Dr. Mintie's English Dandelion Pills. For Fever and Ague, Use Dr. Mintie's English Dandelion Pills. Every family should keep the English Dandelion Pills on hand.

Dr. Mintie's Remedies will not "Cure all Complaints," but will, if taken according to directions, give immediate relief and perfect cure in all troubles for which they are recommended.

Osburn & Shoemaker, Agents.

No Worn No Sacrifice! But always the sledge hammer on high prices. From the very day I opened I sold the very goods which are advertised at panic prices for 25 per cent. less than are now offered by the noble warriors; farther more I do not offer a few articles as a bait, but I sell all my goods for less than ever heard of this side of the Rocky mountains. All who have traded with me can testify to the truth of the above, and those who have never yet traded with me I most cordially invite to be convinced.

MEMORIES OF THE SEA.

Many of Nevada's citizens were born and brought up near the sea. The roar of the surf was in early life to their ears a familiar sound. They listened to it at night when all other sounds had ceased. In fine weather its murmurs rose and fell upon the breeze and soothed them to sleep when they lay down at night. And when a storm was raging they often laid awake and listened to the hollow booming of the surf as it grew and thundered with the freshening gale.

A man who, born and brought up near the ocean, takes up his abode later in life far from sight and sound of the sea, usually feels a longing to return to the coast. Sometimes, when he lies down to sleep, he listens for the old sound that used to lull him to rest. In fancy he hears again the thunder of the waves as they dash against the rocky cliffs, or rush breaking and foaming up the pebbly beach. Once more he sees the sunlight dancing on the blue waves, and the gallant ship, with sails all set, scudding before the favoring wind. Again he walks the sandy beach and watches the breakers as they come rolling in, and, their might expended, creep hissing to his feet.

EDITORIAL NOTES.

Under the Both silver bill, which provides for the exchange of subsidiary silver for currency at the treasury or any sub-treasury of the United States, considerable transfers have already been made in San Francisco. Last Monday sub-treasurer Sherman redeemed over \$300,000 in half dollars for currency at par. The city railroad companies expect to exchange over \$1000 per day in dimes. Standard dollars are not called for, in fact they have been presented at the sub-treasury for exchange into half dollars. Mr. Sherman expects to redeem \$500,000 more in half dollars. His stock of those coins will then amount to \$3,000,000, and he thinks there would still be left in circulation about \$1,000,000. The occupation of the money brokers is about gone.

Bad whiskey kills many men in Nevada. But impure water, also, has its victims. The prevalence of typhoid fever at Suto is in all probability due to the drinking of water contaminated by filtration from privy vaults or sewers. Nine cases out of ten of typhoid fever originate in that way. Medical men have time after time made close investigations in districts where typhoid fever was raging, and the usual cause of typhoid has been proved to be the conveyance of the germs of the disease into the system by contaminated water.

PACIFIC COAST ITEMS.

Severe frosts in Lassen county Sunday night. Most vegetables killed. Grain probably injured.

A new vein of coal, five feet in thickness, has been discovered on the Skagit river, Washington Territory, just one mile west of the original mine.

It is estimated that over 7,000 head of cattle have already been driven from Madison and Beaverhead counties, Montana, this season. They have brought an average price of \$17 per head.

Crops in Boise Valley look remarkably well. There is no indication of grasshoppers. The farmers have their irrigating ditches in good order, and every section of the valley is well supplied with water.

Sub-treasurer Sherman has shipped \$17,000,000 in gold coins to the East as third-class mail matter during the past eight months. Lately, the shipments have been made under a Government frank, and without cost.

The Salt Lake Tribune remarks that a petition is being circulated in Reno, praying the Board of Commissioners to put a stop to trading on Sunday, and makes the comment that "the noise of business disturbs the poker players."

The Grandin farm, in the Red River country, 35 miles north of Fargo, contains 68,000 acres, of which 40,000 are devoted to wheat culture. The farm has a telephone wire, with four miles of wire, and an elevator with a capacity of 50,000 bushels.

CONDENSED TELEGRAMS.

The tower of the East river bridge between New York and Brooklyn is completed.

H. F. Emeric was fatally injured by the fall of an elevator in San Francisco yesterday.

H. B. Convention met at Sacramento yesterday. Slim attendance. No nominations.

The committee to which the divorce bill was referred has pronounced in favor of re-establishing divorce in France.

The Atlantic express train on the Lake Shore road was yesterday thrown off the track. Several persons fatally injured.

John Armstrong, of San Francisco, has completed the task of walking half a mile each quarter-hour for twenty hours each day for thirty days.

Arrangements have been made for Sherman, Blaine, Logan, Chandler, Burroughs, Garfield, Fry, Sheridan and Allison to speak in Ohio during the campaign. Sherman will speak in Maine during the campaign, and at Boston as he passes through that city.

It has been discovered that prior to 1870, in San Francisco, the records of the United States Circuit and District Courts had been loosely kept, that the minute books of naturalization are void on account of not having been entered in the judgment book, and that hundreds have been naturalized of whom there is no record whatever. All these persons will have to go through the process of naturalization again before they can be registered.

Robert Jones (colored), who murdered Randolph Eaton (white) in the village of Rock Mount, December 25, 1877, was publicly executed yesterday at Tarboro, N. C. Jones laughed and poked fun at the sheriff and dwelt on his long religious experience. He said he was going straight to heaven. He was the coolest man ever seen on the gallows—drank wine in remembrance of the brethren in Christ and shook hands all around. Death from strangulation in twenty-six minutes.

On Wednesday, June 18, William Gibson came to Hill's Ferry, near Modesto, Cal., and reported that William Walker, a neighbor, had died suddenly of hemorrhage of the lungs and he wanted a coffin to bury him in, and that it was not necessary to hold an inquest; but the citizens thought best to send a doctor, who found his head crushed as from a blow of an ax, and an ax was found near the door covered with blood. Gibson has been arrested. His many contradictory stories point to him as the murderer.

Boston and San Francisco capitalists are interested in the progress which is made with the Southern Pacific road now being pushed forward, and it is expected that within fifteen months connection will be made with the Missouri River, Fort Scott and Gulf road. This is a Boston enterprise almost exclusively, and is regarded as having a brilliant future. It is said that before the connection is made, arrangements will be completed so that when a junction with the Southern Pacific is effected trains can run direct from Chicago to San Francisco. This enterprise will destroy the monopoly of the existing Pacific roads, and will be a great advantage to shippers by forcing low rates for freight and passage.

THE GREAT RACE.

Mollie McCarty Wins the Garden City Cup at Chicago—A Close Contest.

The event of yesterday at Chicago was the race for the Garden City Cup, a dash of two and a quarter miles, all ages, \$50 entrance, \$1,500 added, \$200 to the second, and \$100 to the third. The following started: Baldwin's Mollie McCarty and Clara D.; Lottery, Governor Neptune, Edinburgh, Dave Moore, Janet, Camille, Charley Howard, Janitor, Solicitor, and McHenry. The excitement regarding this race was intense throughout. The betting had favored Janet by the heavy odds of 700 to 200 for Baldwin's entries and vast sums of money changed hands at those proportions. The start was excellent, the horses running nearly side by side for the first 100 yards. The race was finely contested throughout. Mollie McCarty won by three lengths, under a steady pull; Dave Moore second by half a length; Solicitor third, Janet fourth, Camille fifth, McHenry sixth, Governor Neptune seventh, Clara D eighth, Lotter ninth, Edinburgh tenth, Janitor eleventh and Charley Howard twelfth. Time—4:02.

It is estimated that from \$80,000 to \$100,000 changed hands on the result of yesterday's races, chiefly on the Garden Cup race, which excited intense interest. The speed and bottom of the California mare, Mollie McCarty, was a surprise to most of the spectators.

The Inter-Ocean says: There was a great rivalry between the bluegrass crowd and those of the Golden State, owing to the celebrated Ten Broeck Mollie McCarty affair of last year. It was unfortunate for the Kentucky men that it was an undisputed fact that the mare was in bad form ten days ago, and although within the last few days she rounded up sufficiently to give her backers confidence, the fanciers of Janet and Dave Moore refused to believe it. The result was that fully \$40,000 went into the box against McCarty and against less than \$15,000. Janet did not act well, and as she took her place on the outside she backed around in an uneasy, nervous manner. On the contrary, the Queen of the Pacific, while on the alert, acted in the most docile manner, and many a pool was taken on her while she was waiting for the tap of the drum. At the end of two miles blood began to tell, and Mollie challenged the leaders for the front. It was her race, and she took it when she wanted to, although Dave Moore came up and made a gallant fight, coming within an ace of saving the glory of Kentucky. After her cheer went up when McCarty rode up and took the purse.

Passed for the Term.
The trial of Deacon Parkinson has been passed for the term, meanwhile, the good Deacon is disporting himself in the salt spray of Santa Cruz, oblivious of law courts and troublesome indictments.

THE SCHOOL FOR GIRLS.

The Public Examination, and the Tenth Rehearsal of the Department of Music.

The public examination of the pupils of Bishop Whitaker's School For Girls took place yesterday. The proficiency displayed by the pupils evidenced the careful and thorough system of instruction for which the institution is distinguished. The literary exercises of the day, were, as usual, pleasing, and gracefully rendered by the pupils of the school. Considerable interest was manifested by the public and the rooms received many visitors during the day. The School For Girls is an institution highly creditable to the state of Nevada. That Bishop Whitaker is at its head is a sufficient guarantee of the excellence of its management. Reno offers many advantages as a location for educational institutions. The air of this region is so pure and dry and stimulating that it excites a high degree of mental activity. The climate favors both mental and physical development. It has been said that the sight of Stirling Castle is of itself an art education. In the same way it might be remarked of Reno that the daily contemplation of the grand mountains that environ it is equivalent to an education of the imagination; must cultivate a sense of all that is majestic and beautiful in nature, is, in short, of itself an aesthetic culture. To enumerate all the advantages of Reno as a college town would require a special article. Its claims are already as well understood that pupils are to be found here from all parts of the coast.

THE MUSICAL REHEARSAL.

at the Bishop's School was largely attended last evening. Even standing room was in demand before the exercises began. The benches were made to hold a few more than they were originally adapted for and the lady visitors and their escorts were, no doubt, rather uncomfortably crowded together. The evening's entertainment consisted entirely of vocal and instrumental selections. There were piano solos, duets and trios, sacred selections for the organ, and a variety of vocal performances. The programme included several difficult classical compositions. The arrangement of the programme evinced not only excellent taste but a correct judgement of what is in general pleasing to a mixed audience. The fine execution of the pupils reminded one of the distinction O. W. Holmes makes between the music which is poured out, and that which is poured in. The whole rehearsal was free from any straining after effect. The singing was easy and natural and the selections within the compass of the voices of the pupils. The class includes several voices of considerable promise. The performance last night was highly creditable to both teachers and pupils, and was heartily enjoyed by the audience, which included visitors from several places in the vicinity of Reno.

Mr. Haskell's Lecture Last Night.
A fair audience turned out to hear Rev. Mr. Haskell's lecture before the Reform Club at Kimball's hall last night, notwithstanding the other attractions in town. Mr. Haskell's lecture was brief, but forcible and pointed, and was well received. He is a ready speaker without being exactly eloquent, knows what he wants to say and says it without begging his ideas and points in a mist of words. Besides the lecture there were some musical and literary exercises. The meeting of the club last night was altogether both pleasant and instructive.

Little Prospect of Annie's Recapture.
Charles Annis (some of the papers will persist in calling him Ennis, when his name is Annie) seems to have made good his escape. At least all trace of him has been lost. It is quite probable, though, that he is hiding with some friend in the immediate neighborhood of town, especially as he is known to have come very close shortly after his escape, and nothing can be heard of his being seen at any place distant, which would most certainly have been the case had he been traveling out of the country.

Arrest of a Contemptuous Witness.
Sheriff Williamson of Storey county, came down from Virginia, yesterday evening for Nellie Folsom, a defaulting witness in the case of the State of Nevada vs. H. J. Brady for the murder of Adam Clark. The contemptuous witness was found in a house of ill fame, and Mr. Williamson took her back to Virginia this morning.

Election of Officers.
Truckee lodge, No. 14, I. O. O. F. last night elected the following officers for the ensuing year: N. C. Hamersmith, N. G. R. W. Ash, V. G. J. V. Peers, Sec.; G. W. Cunningham, P. S.; I. Frederick, Treasurer; C. P. Powning, J. H. Kinkaid, F. C. Updike, Trustees.

Fisticuff Conclusions.
A white man and a colored citizen got into a fight on Virginia street yesterday afternoon. The colored troops fought nobly, but came off second best in the fray. A damaged eye was all the casualties of the fracas. No arrests.

Card of Thanks.
Mother M. Dolores returns thanks to the ladies and gentlemen, who contributed and assisted at the late entertainment.

St. Mary's Academy, June 26.

SPECIAL TO THE G.

The H. B. Platform.

The Khedive Consents To Come Down—Eaton Presides In The Senate—Mark L. Wins The First Heat In The Race This Afternoon.

The H. B. Convention.

SACRAMENTO, June 26.—The H. B. Convention this morning elected temporary officers as permanent, and adopted a platform affirming the new Constitution, repudiating communism and agrarianism, demanding that the stringent clauses against the Chinese in the new Constitution be put into effect, favoring reduction of freights and fares one-third, opposing double taxation and demanding that municipal and county officers be elected by the people, not appointed.

A resolution that delegates should, by district, nominate Congressmen, was tabled after considerable debate.

The Chicago Races.

CHICAGO, June 26.—At the races to-day for the Allerton stakes, mile heats, the first was won by Mark L. Bill Bass second; time 1:43.

WASHINGTON, June 26.—Thurman being absent, Eaton presided to-day as chairman of the senate.

The Khedive Compiles.

CONSTANTINOPLE, June 26.—The Khedive has signified his compliance with the demand for abdication.

Clean Up and be Healthy.

There is a great deal of trash and filth lying in different parts of the town. THE GAZETTE has times without number called attention to the matter, but nothing has been done toward cleaning up, except where it has pointed out some special and flagrant instance. There are still sinks and cellars open for the unwary to walk into. Only a few nights ago a citizen stepped into an old cellar in the dark, and was considerably bruised. All persons having open places of this character on their lots should be compelled by the town authorities to fill or cover them up. There is little attention paid in some quarters to the stovetop ordinance. The dangerous stovepipes are still to be seen sticking through the roofs in many places. The ordinance as a protection against fire, is of no benefit as long as people disregard it at pleasure.

Particulars of the Casualty at Shady Run.

The man, who had his foot cut off by the lightning train at Shady Run Tuesday night, was trying to steal a ride. The train started to back up when he jumped off, but struck a bank and slipping down, one of his feet got under the wheels and was cut off. The foot was entirely severed from the leg just above the ankle. The poor fellow gave a fearful scream when the wheels passed over his leg. He was put on the train and taken to Auburn, where Conductor Allen hired a wagon and sent him to the hospital. The name of the luckless wretch could not be learned.

A Monster Cold Water Picnic.
Our temperance organizations are taking steps to have a grand picnic at Bower's Mansion, sometime about the middle of July. The two Good Templar lodges, the Champions of the Red Cross and the Reform Club of this place will participate. Correspondence is now being carried on with a view to getting the temperance organizations of Carson, Virginia, Empire, Franktown and Washoe to join in on the occasion. Should the project, as now planned, be carried out successfully it will be the biggest excursion affair of the season.

Change of Orators for the Fourth.
Hon. C. S. Varian, who was to have delivered the oration on the Fourth, has notified the committee that he will be unable to deliver it, on account of the time and attention he is forced to give to the trial of the Cherry Creek robbers, which is now going on before the U. S. district court. Hon. W. M. Boardman has been selected by the committee to deliver the oration in his stead.

Personal.

H. M. Yerington was in town to-day.

D. H. Haskell, Central Pacific town agent, stopping at the Lake house.

W. M. Garvey, agent of the Pyramid Indian reservation, is in town.

Banner Brothers have the finest stock to be found on the coast, embracing everything a man can get on his back together with all sorts of trunks and valises to put it in. They have just received an immense stock of Spring and Summer goods. Call and see them. Corner of C and Taylor streets, Virginia, Nev. BANNER BROTHERS, Jan. 19

Fresh Fruits and Berries daily received at Burchard & McClelland's.

Talk is Cheap.

And so are fine clothing, boots, shoes and gentlemen's and boys' fine furnishings. If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this state. Everything we have is new. No old, musty, and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices, and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No stereotyped goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods forms one of our specialties. Remember this place, the White House, No. 19 Commercial Row.

WHY STAY POOR?

Prospecting often Pays; Idleness Never.

The millions of the Comstock were a lucky
find. Worthless looking rock is often rich in
treasure. At Leadville a simple assay made
the fortune of the discoverer. How often has
been suspected away the coming of some un-
known man. Who's he?

At the City and County Assays for Gold
and Silver are made at \$1.00 per sample, by
CONRAD WIEGAND, formerly the Super-
vising Assayer of the U. S. Mint at San Fran-
cisco.

The mail will carry ore samples to his office
for assay.

Reports which may be relied on absolutely
come back by return mail, or results are tele-
graphed, when ordered so.

All costs, delays, and risks in remitting
money are avoided by the purchase of our
Dollar Remittance Tickets, which pay for all
expenses on our part.

We sell these prepaid tickets at a discount
when \$3 worth or more are ordered at one
time.

Small sacks for mailing ore samples also
for sale at a nominal price.
